Je partage avec vous ce livre mobile pour créer des phrases avec pictogrammes, avec structure morphosyntaxique sujet + verbe (seulement la troisième personne) + complément, en utilisant les déterminants correspondants dans chaque cas. Les couleurs que j'ai utilisées sont celles utilisées par le

programme Teach Me to Speak : Déterminants : bleu ; sujet : vert ; verbes : rouge ; compléments : jaune ; j'espère que vous le trouverez utile !

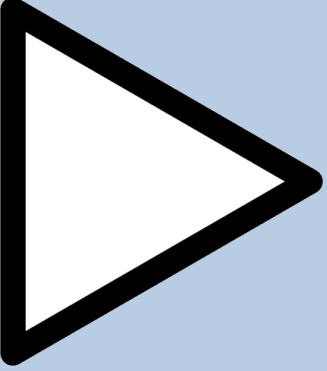

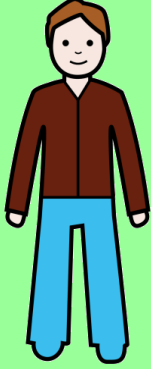

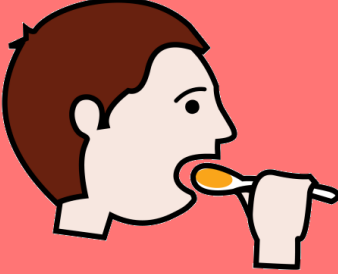

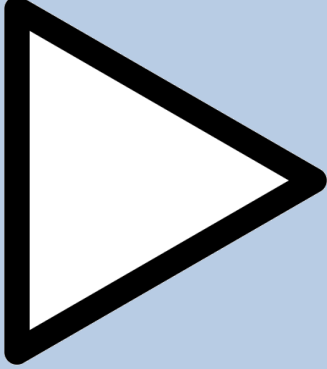

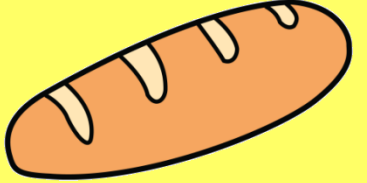

Ici, vous pouvez voir de quoi ça a l'air. Vous pouvez adapter la longueur des phrases en utilisant autant d'éléments que vous le souhaitez. Je commencerai seulement par le sujet et le verbe (j'ai ajouté différents déterminants : articles, possessif et démonstratif).

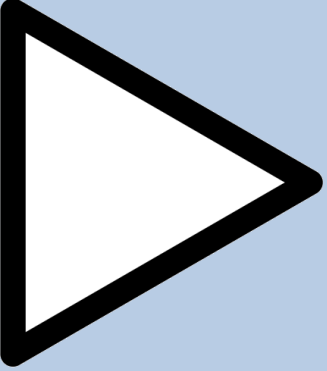

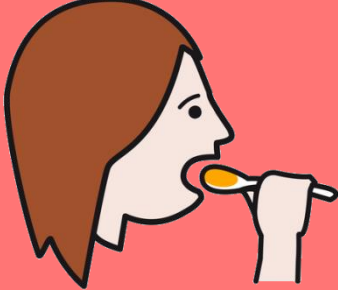

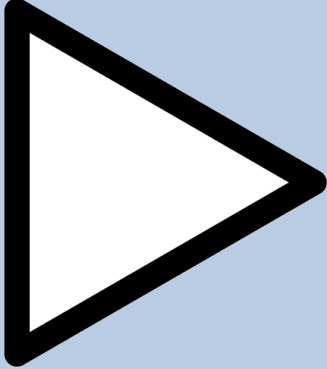

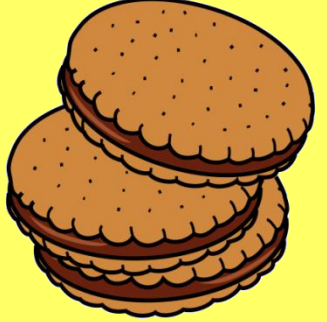

En guise de conseil, j'ai utilisé un morceau de plastique restant et je l'ai mis à la fin, donc je vais l'utiliser comme butée pour faciliter son utilisation...

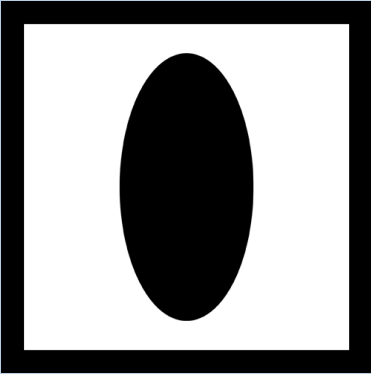

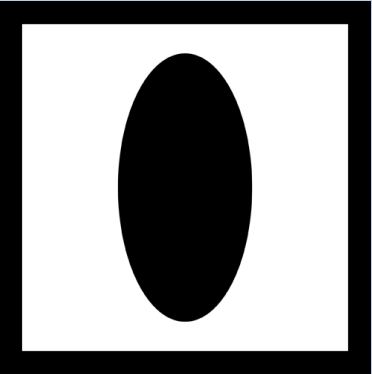

J'espère que vous l'avez aimé !
