

# MI CUADERNO DE MATEMÁTICAS

ESPACIALES

**Con plantillas para  
REUTILIZAR INFINITAS VECES**

Por Diana Bericochea  
con pictogramas de ARASAAC

# Presentación

Libro para trabajar habilidades básicas de matemáticas aumentando la dificultad progresivamente sin necesidad de cambiar de material.

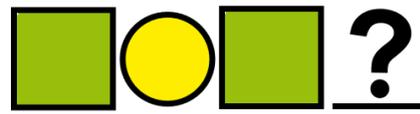

Se trata de un libro reutilizable compuesto de distintas plantillas para contar, sumar, restar, resolver problemas, ir de compras y muchas otras actividades matemáticas diarias.

Permite la combinación del estilo tradicional de una ficha que favorece el trabajo en mesa individual con el estilo teacch incorporando materiales manipulativos en la ejecución de la tarea. Podemos contar castañas en otoño, sumar flores en primavera y realizar series con pompones de colores.

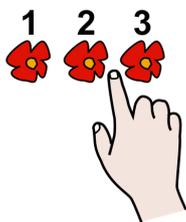

Incorpora enunciados simples y en mayúscula con apoyo visual de pictogramas para favorecer la comprensión autónoma de las tareas propuestas.

Para preparar el material se debe imprimir el presente documento, plastificar y escribir en él con un rotulador especialmente indicado para pizarra blanca.
