

ACTIVIDADES MATEMÁTICAS

MEDIOS DE COMUNICACIÓN

POR DIANA BERICOCHEA
CON PICTOGRAMAS DE ARASAAC

Presentación

Cuadernillo de matemáticas para llevar a cabo durante el proyecto "Medios de comunicación".

Está pensado para realizarse en un aula TEA con alumnado enmarcado en diversos niveles de habilidad, mejor dicho, con distintos estilos de aprendizaje y ejecución de tareas. Por ello hay tres versiones del cuadernillo: Nivel 1 y nivel 2 y versión adaptada.

El nivel 1 presenta numerosas claves visuales para que el alumno con necesidad de modelo pueda disponer de autonomía real a la hora de realizar las tareas propuestas. Para alguna ficha puede necesitar indicaciones verbales o apoyos visuales adicionales. Las tareas matemáticas son un poco más sencillas que en el nivel 2, por ejemplo; las series consisten en agrupar las imágenes iguales en línea, mientras que en el nivel 2 ya encontramos imágenes intercaladas.

La versión adaptada está orientada a un alumnado con un estilo todavía más específico, por ejemplo, en lugar de pegar x número de gomets debe clasificarlos por colores, se eliminan actividades de sumas y restas y se aumentan las de tipo organización y orden.

El material está adaptado con pictogramas de ARASAAC para servir de apoyo visual al niño, además los enunciados tienen las mínimas palabras y están en mayúsculas. Por otra parte utilizamos elementos grandes y evitamos sobrecargas visuales.

Puede ser un material útil para otros alumnos con dificultades de comprensión o que se están iniciando en el área matemática.
