

un Natale molto teacch

DI DIANA BERICOCHEA

@EDUCACIÓN ESPACIAL

pittogrammi di ARASAAC

Presentazione

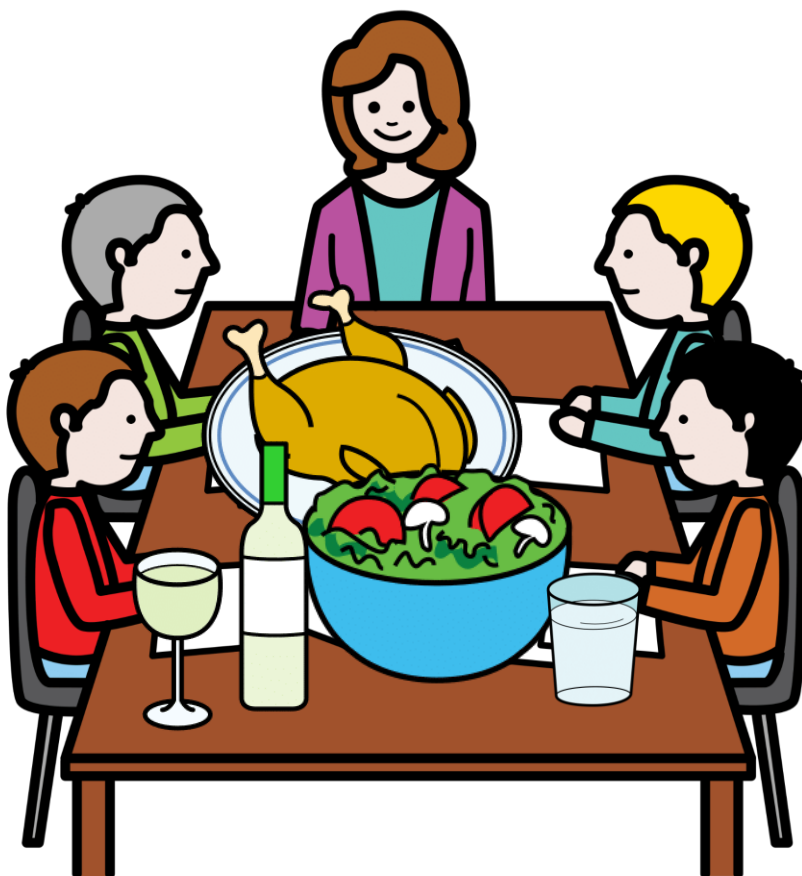

Quaderno di Natale di tipo TEACCH per lavorare sul vocabolario e l'attenzione con una presentazione visiva che ~~permette di ridurre la percezione~~ del compito da realizzare. L'obiettivo è lavorare sul Natale offrendo autonomia all'alunno dato che l'estetica offre le informazioni ~~messaggi~~ necessari per svolgere l'attività senza le indicazioni verbali.

Adattato con i pittogrammi di ARASAAC è particolarmente indicato per gli alunni con disturbi dello spettro autistico. Per preparar il quaderno si deve stampare il documento e plastificarlo. Inoltre si devono stampare gli allegati con le parti mobili, ritagliare, plastificare e applicare il velcro.
