- La actividad cuenta con una locomotora y unos vagones que tendremos que imprimir 15 veces para completar la formación de sílabas.
- Arriba pondremos el letrero de la letra que vamos a trabajar y debajo cada una de las sílabas con consonante y vocal.
- A continuación deberán buscar y pegar en el vagón los pictogramas que empiecen con esa sílaba. Para ello deberemos poner 5 velcros circulares dentro del vagón para el niño/a directamente lo pegue.
