I'm growing.

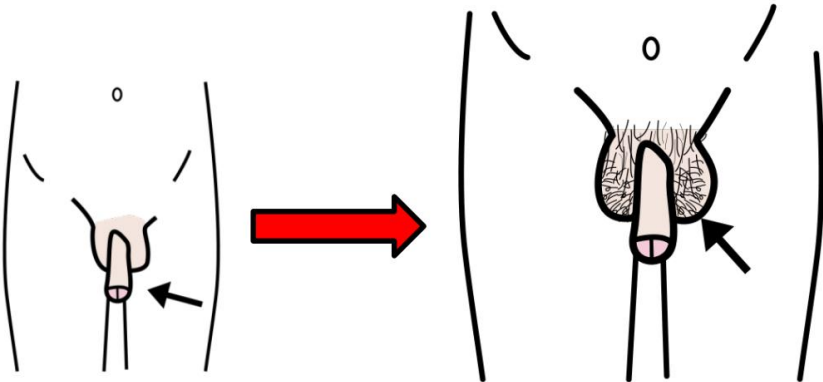

I'm already a boy.

I'm becoming a man.

My body is changing.

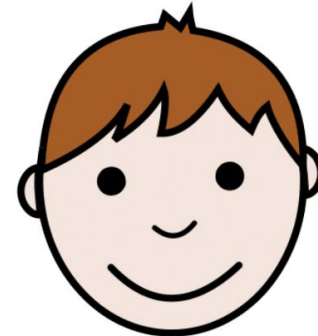

My penis got bigger and I started growing hair.

Sometimes I feel like touching  
my private parts.  
My penis is an intimate part.

Touching my penis makes me  
feel good.

I shouldn't touch my penis in front of my friends or family.

It's not nice to touch your penis in front of other people.

I can only touch my private parts in private places, when I'm alone.

**MY ROOM is a  
private place.**

**THE BATHROOM IN MY  
HOUSE is a private place.**

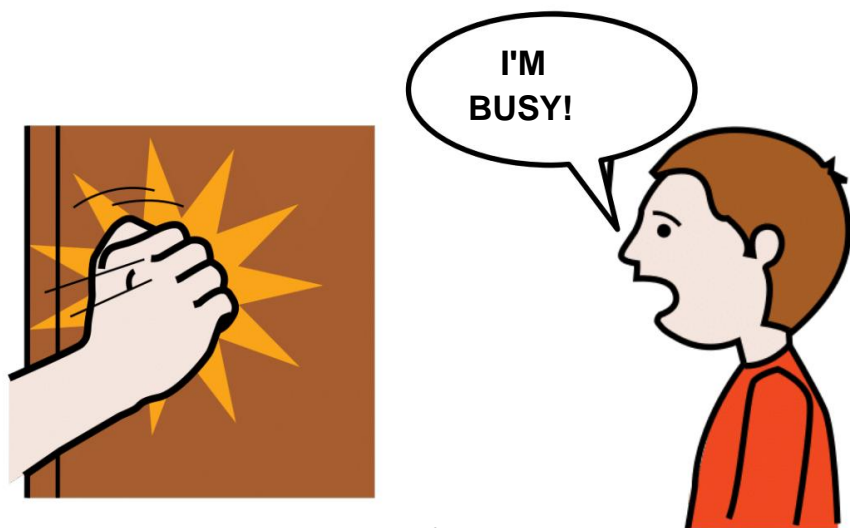

When I feel like touching my penis, I go to my room.

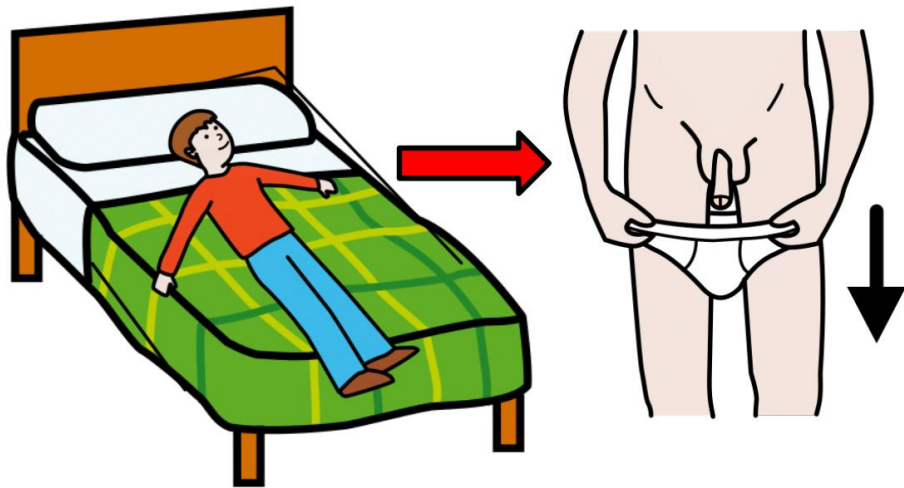

I need to close the door.

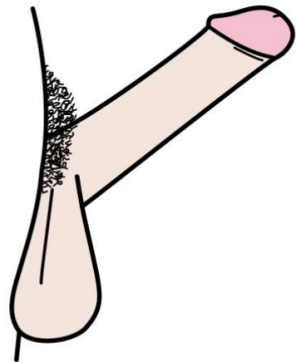

If someone knocks at the door, I can say:

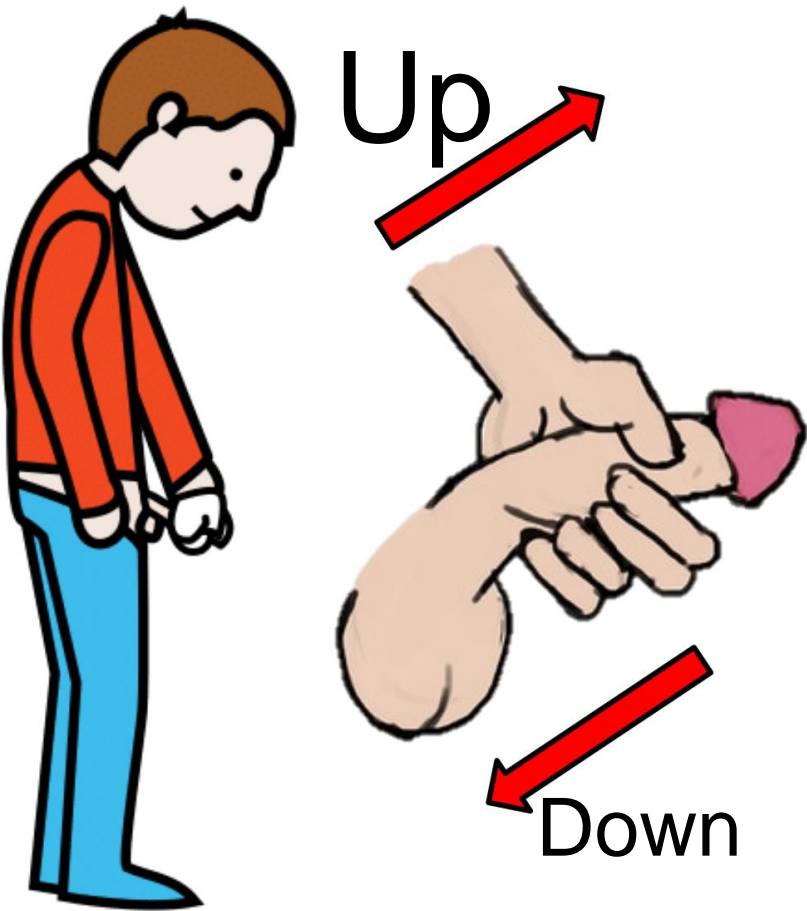

In my room, I can lie on my bed and pull down my underwear.

My penis will grow and get hard.  
This is called ERECTION.

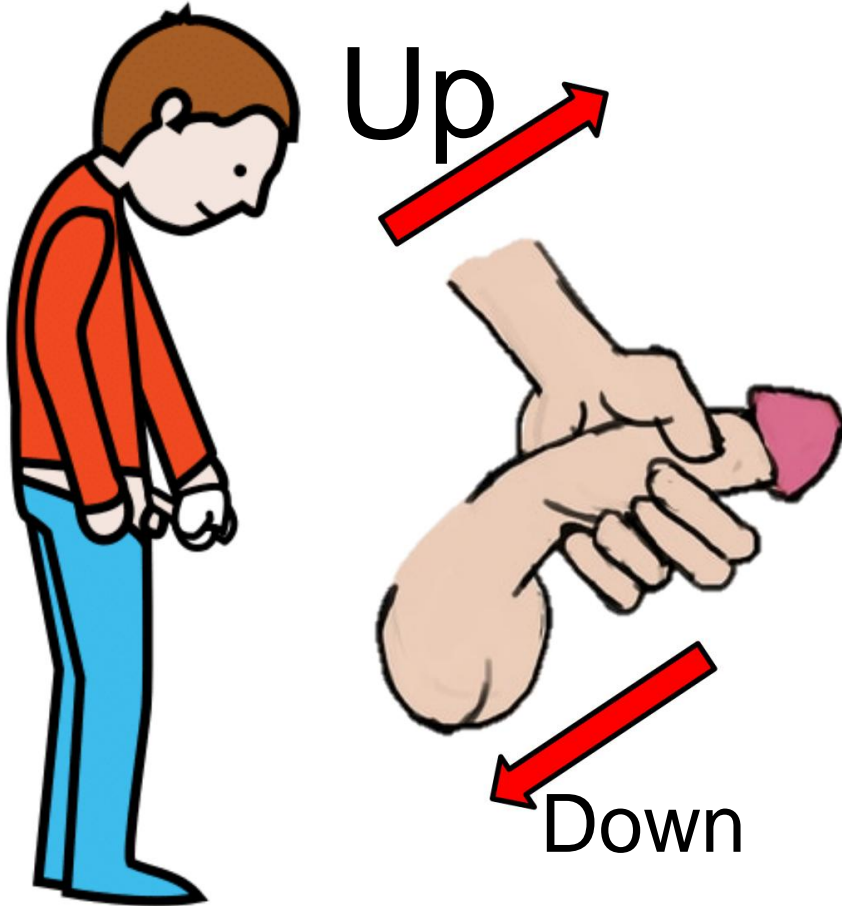

I'm going to pick it up and I'm going to move my hand up and down.

This is called MASTURBATION.

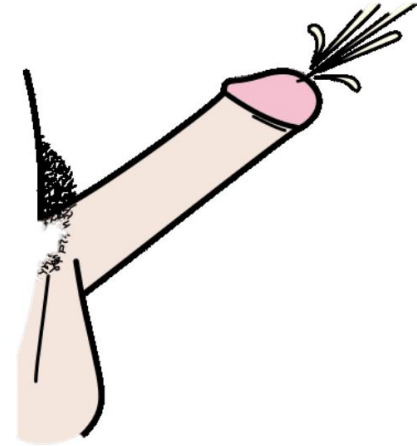

I will feel great pleasure when masturbating.

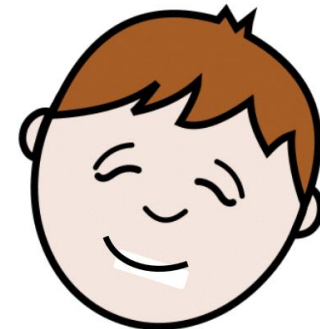

If I move it quickly I'll like it a lot.

I'm going to like it so much that liquid is going to come out of my penis. This is called EJACULATION.

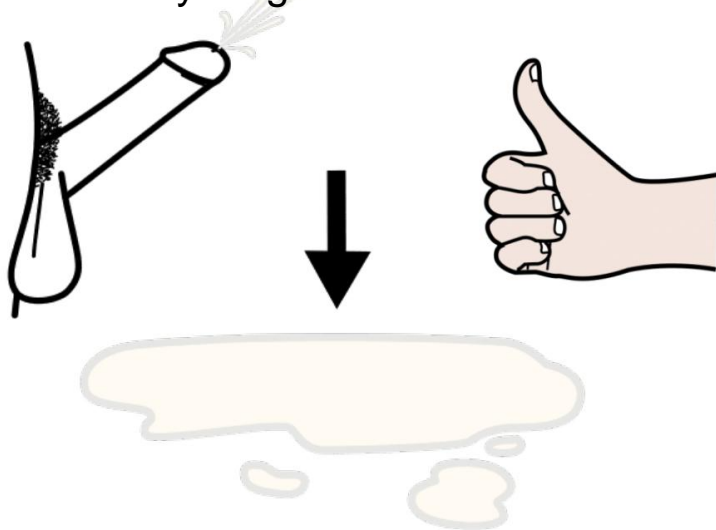

I will feel a very good feeling. This is called ORGASM.

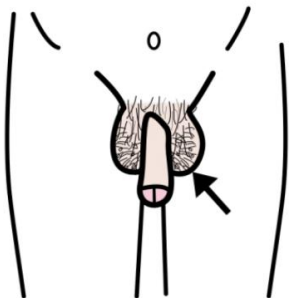

The liquid that comes out of my penis  
is called SPERM.

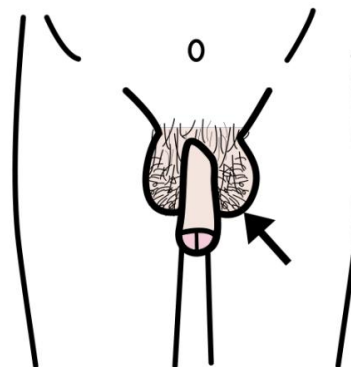

Everything's fine.

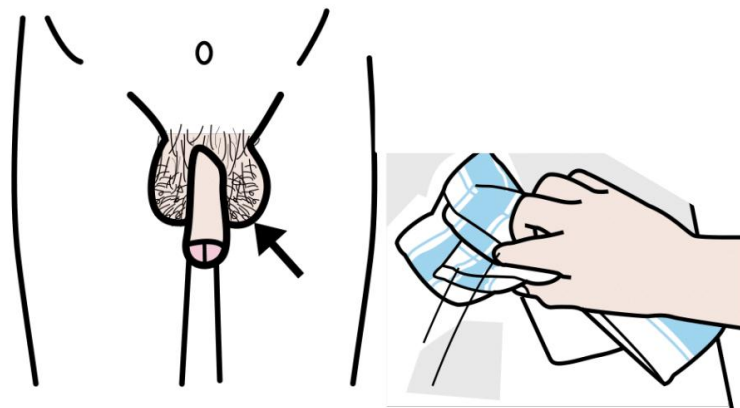

When I masturbate, I just have to be  
careful not to hurt myself, because  
my penis and testicles are sensitive.

After I ejaculate, my penis will be  
soft and small again.

But I need to clean.

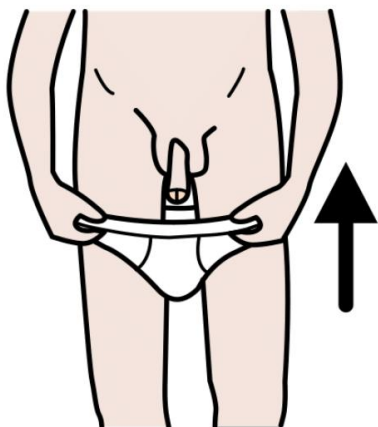

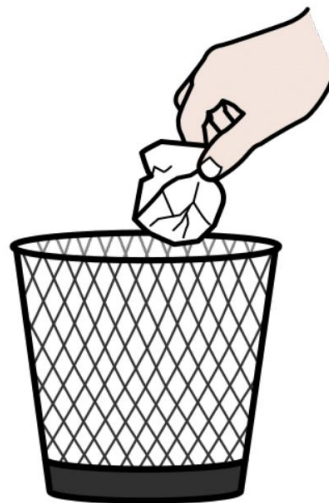

I can clean it with toilet paper or a damp tissue.

Then I put my underwear back on and go to the bathroom.

In the bathroom I throw the paper in the trash

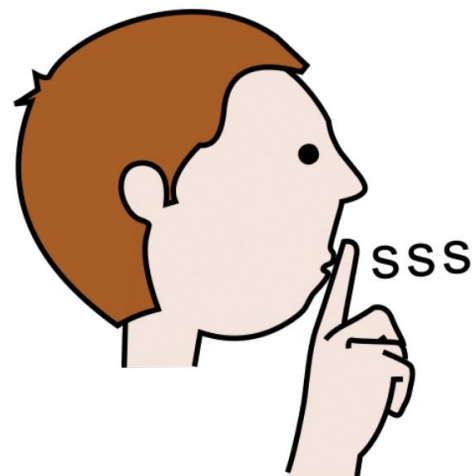

and then I wash my hands.

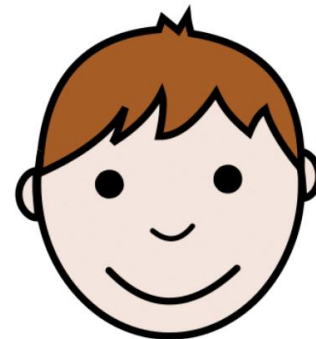

If I want I can take a shower.

I shouldn't say anything about my  
privacy.

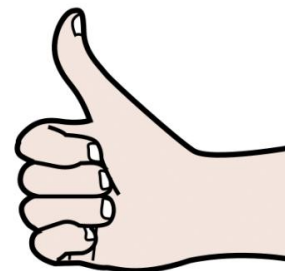

Masturbating is okay and something  
that makes me feel good.

Sometimes I can wake up and  
realize that

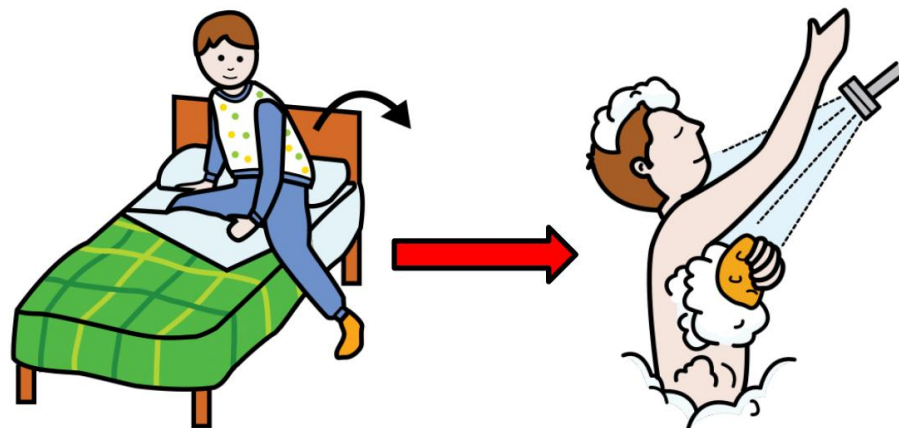

It's okay if this happens.

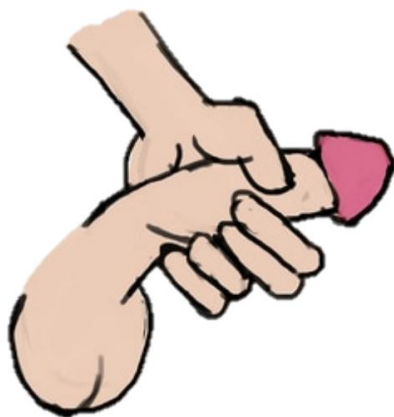

I can get up and take a shower.

my penis is hard or my underpants  
are wet.

It's okay if I masturbate or touch my private parts.

All people have their intimate moments.

But I can't forget that I can only do this when I'm ALONE and in a private place.
