JOGOS

Memória: colocamos as imagens voltadas para baixo e, por turnos, cada um deve virar duas cartas. Se coincidirem, fica com elas. Quem conseguir mais pares vence.

Fazer pares: a criança deve encontrar as imagens iguais e emparelhá-las.

Recorda: mostro várias imagens, fecham todos os olhos e eu retiro uma imagem. Que imagem retirei? O que mudou?

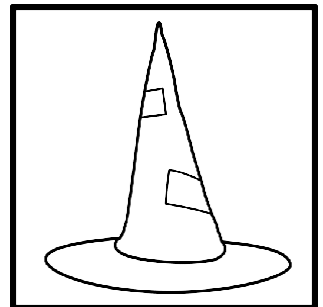

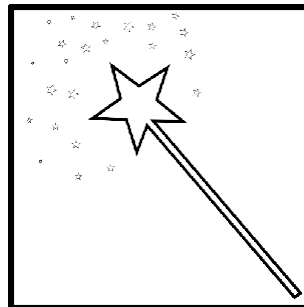

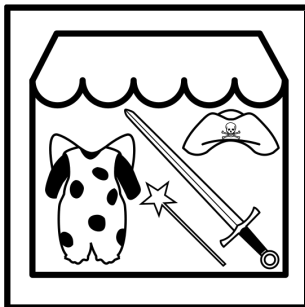

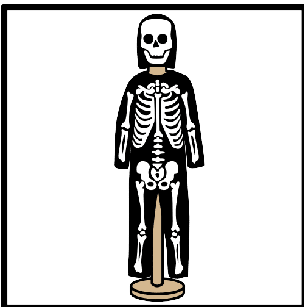

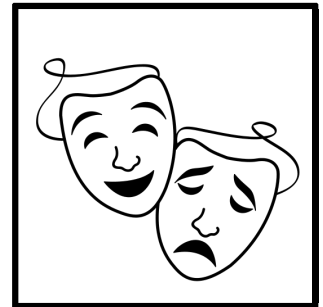

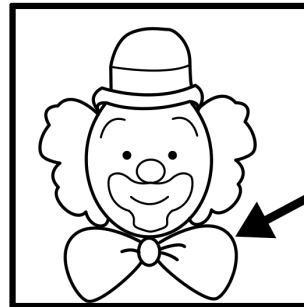

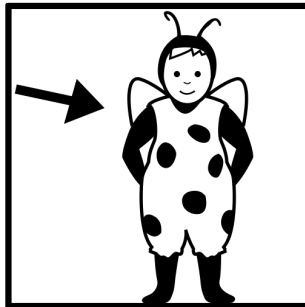

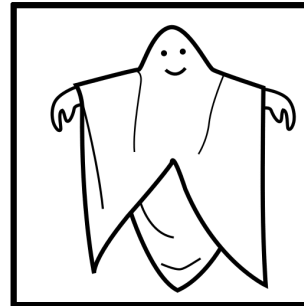

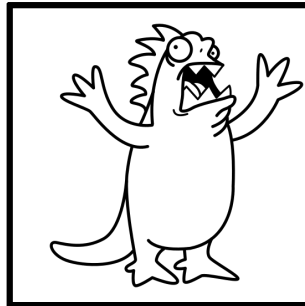

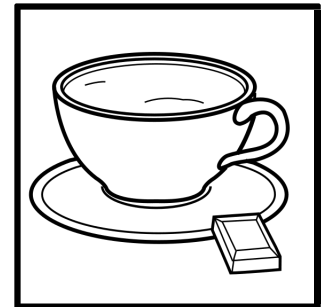

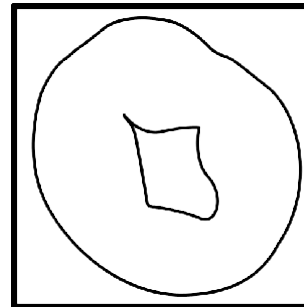

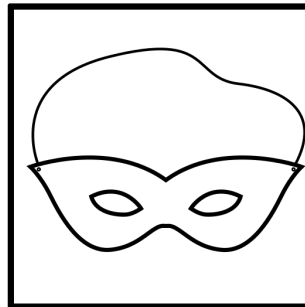

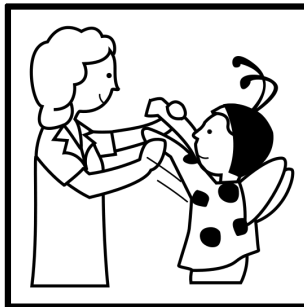

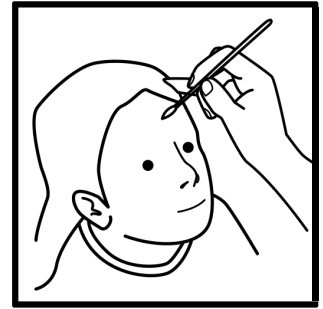

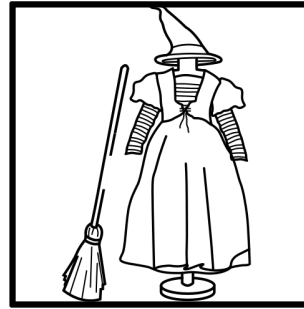

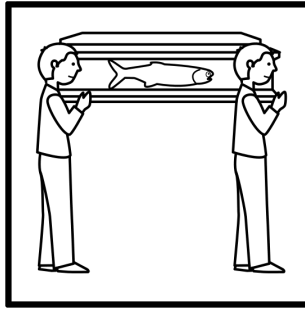

Assinala: coloco todas as imagens sobre uma superfície e, quando digo o nome de uma imagem, devem procurá-la e apontá-la. Mostro a imagem modelo ao aluno que precisa de uma referência visual.

Bingo: Podemos colocar as imagens pequenas com velcro numa roleta e distribuímos um cartão de bingo a cada criança (diferente ou igual para que todos ganhem, devem riscar cada imagem que sai). Se não tivermos uma roleta, podemos colocar as imagens numa caixinha e retirá-las sem olhar.

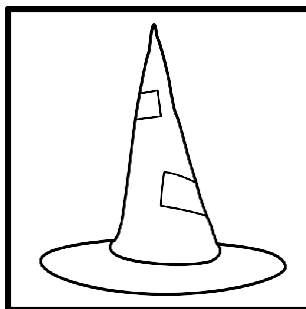

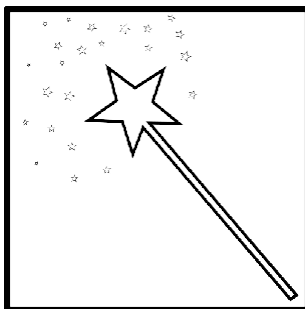

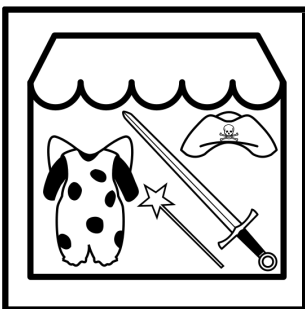

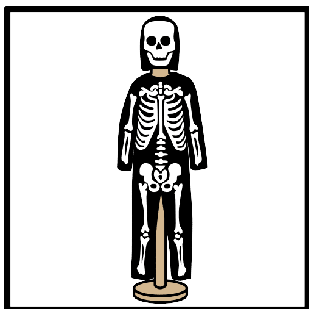

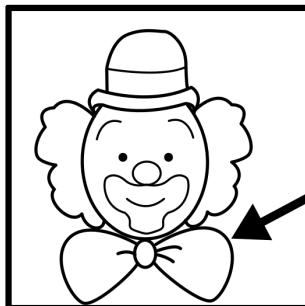

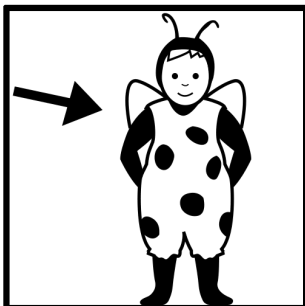

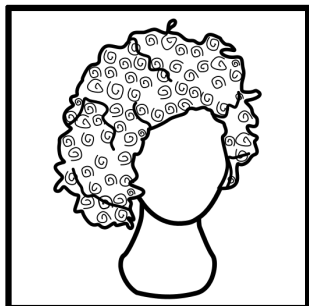

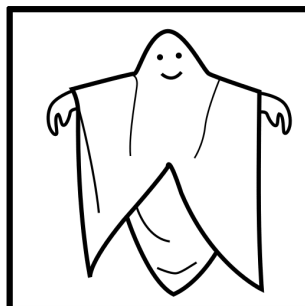

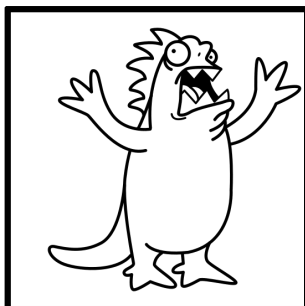

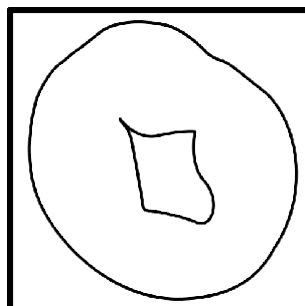

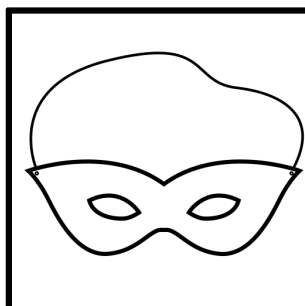

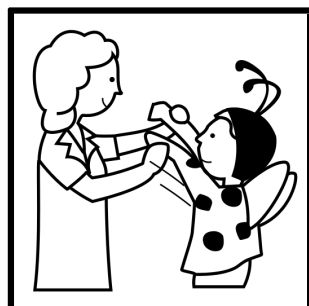

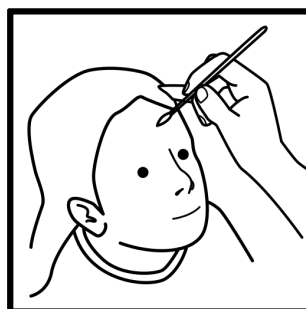

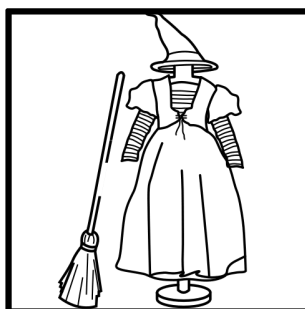

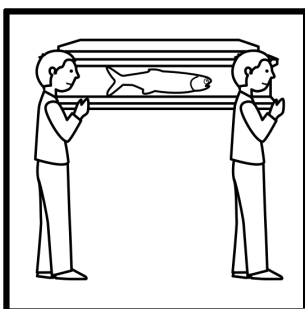

Escuta: Distribuímos as imagens pequenas entre os alunos e a professora diz o nome de uma das imagens. Os alunos devem ouvir e o que tiver a imagem referida deve premir um botão ou levantar a mão.
