

Le Consentement réserve de cartes

exemple d'utilisation

Possibilité de faire choisir les personnes séparément pour qu'elles ne soient pas sous influence de l'autre. Les cartes « jeux », « parler » permettent d'accepter certaines activités et ne pas centrer la relation que sur les relations corporelles.

Possibilité d'avoir un tableau plus détaillé des acceptations des parents (liste d'actions ok ou pas). Utiliser le consentement des parents si approprié, notamment pour les personnes les plus vulnérables.
