

INSTRUCCIONES

- Los placas deberían ir siempre con texto en mayúsculas y con el mismo tamaño de fuente. A ser posible una fuente tipo imprenta (Arial, Roboto,..).
- Las placas para que sean accesibles se deben colocar a una altura media de 1,20 (mínimo 90cm y máximo 160cm de alto y una medida de entre 15x15 y 20x20 cm para que sean visibles desde distintas distancias y perspectivas.
- En este modelo de placa el pictograma se enmarca con el borde negro que ya tiene la plantilla. Si el picto que se inserta tiene un marco cuadrado (indicador de habitación) deberá eliminarse al insertarse recortando el pictograma.
- Las placas que se ofrecen a continuación son una muestra representativa de las estancias y consultas de un hospital pero para cada proyecto se deberá hacer un estudio previo de las estancias a señalar y seleccionar aquellas necesarias de entre las que se ofrecen o crear nuevas si no estuvieran.
