

INSTRUCTIONS

- Les planches doivent toujours être en majuscules et de la même taille de police. Si possible, une police d'impression (Arial, Robot, etc.)
- Pour être accessibles, les planches doivent être placées à une hauteur moyenne de 1,20m (minimum 90cm et maximum 160cm de haut) avec une taille de pictogramme carré comprise entre 15x15 et 20x20 cm. Elles seront ainsi visibles selon différentes distances et perspectives.
- Dans ce modèle de planche, le pictogramme est encadré par la bordure noire déjà présente. Si le pictogramme à insérer comporte un cadre carré (indicateur de pièce), le retirer lors de l'insertion en découpant le pictogramme.
- Les planches suivantes constituent un échantillon représentatif des salles de consultation d'un hôpital. Mais pour chaque projet, il convient de réaliser une étude préalable des locaux à signaler et de choisir ceux qui sont nécessaires parmi ceux proposés, ou d'en créer de nouveaux s'ils n'existent pas déjà.

TEXTE A FORT CONTRASTE

ZONE DU LOGO (LE LOGO ARASAAC EST OBLIGATOIRE POUR
UTILISER LA LICENCE. NE PAS LE RETIRER)
