

Mappe ed esercizi di letto-scrittura con il supporto grafico della Comunicazione Aumentativa Alternativa dell'Arasaac - Centro Aragonese di Comunicazione Aumentativa e Alternativa.

Questo volume nasce dalla mia esigenza, come insegnante, di avere uno strumento strutturato per il primo apprendimento della letto-scrittura da parte dei bambini. La Comunicazione Aumentativa e Alternativa (CAA), fatta di pittogrammi colorati che visualizzano i concetti espressi dalle parole, è uno strumento già largamente usato con i bambini con difficoltà linguistiche ma sono una tecnologia didattica molto utile per tutti i bimbi che si avvicinano per la prima volta alla letto-scrittura. Inoltre il volume propone una didattica *learning by doing*, con difficoltà progressivamente crescente, in cui il bambino può apprendere da solo, con l'unico ausilio di ascoltare da un adulto il suono corretto del fonema. È gratuito ma richiede l'accortezza di una stampa a colori, questi ultimi, parte integrante della didattica dei contenuti proposti. È uno strumento utile tanto per gli insegnanti che per le famiglie in quanto le immagini e gli esercizi lo rendono particolarmente attrattivo per l'attenzione dei bambini.

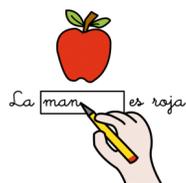

Ringrazio l'ARASAAC, Centro Aragonese di Comunicazione Aumentativa e Alternativa, per aver gentilmente concesso l'utilizzo dei pittogrammi.

Annamaria Di Veroli
