# GRAMÁTICA E CAA uma proposta de trabalho:

- Este material é a síntese de um processo realizado numa turma do quinto ano primário em que, para tornar os materiais acessíveis a todos e oferecer uma proposta de trabalho adequada a todos, traduzimos todos os materiais de trabalho em símbolos. O material pode ser utilizado para associar frases a imagens, inseri-las em gráficos e construir livremente frases com pictogramas divididos em categorias.
- A cor vermelha identifica o verbo, a azul os sujeitos, a azul clara os complementos.
- O círculo amarelo representa preposições simples ou articuladas. As ilustrações, que pretendem operar em combinações globais de frase-imagem, foram criadas com a IA do Canva. As sentenças em símbolos e as tabelas foram criadas no SimCAA (<https://caa.simcaa.org/>) e na plataforma ARASAAC. Os símbolos pictográficos utilizados são propriedade do governo de Aragão e foram criados por Sergio Palao para ARASAAC (<http://www.arasaac.org>), que os distribui sob a licença Creative Commons BY-NC-SA.
